Description

This high efficient Gallium Nitride (GaN) charger is much more efficient and runs cooler than traditional silicon-based chargers, resulting in a significantly smaller charger size & faster charging speeds.

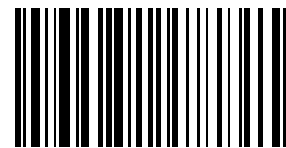

The latest charging technology. Experience the benefits of a PD Ultra-Fast charge with your new PowerPeak PD wall charger. This charger intelligently allocates the appropriate power to give your device the optimal and quickest charging speed.

Smart Safety; with advanced Smart-iQ technology. This charger protects your device with protection features against overvoltage, overcurrent, overheat, short circuit, overpower and interference.

This 65W powerful wall charger is compatible with laptops, tablets, gaming consoles & smartphones such as: MacBook Pro, iPad Pro, Nintendo Switch, Tablets & Android Smartphones.

This 6ft USB-C to USB-C cable contains an electronically marked chipset (E-Mark) for power delivery support. The E-Mark IC chip automatically identifies the voltage and current required by different electronic products, ensures stability and provides the fastest available current up to 20V/5A(100W).
